

Conduit Pipe Bender & Conduit Die Set

Product Catalog

Conduit Pipe Bender

Description

The Conduit Pipe Bender is a reliable and efficient tool designed for bending electrical conduits and metal pipes with precision. This tool ensures clean, accurate bends without damaging the material, making it an essential item for professionals in the electrical, plumbing, and construction industries. It features a robust frame, easy-to-read markings for accurate angle measurement, and a smooth bending mechanism that accommodates various pipe sizes. Whether for creating curves in electrical wiring conduits or plumbing pipes, the Conduit Pipe Bender delivers consistent performance and durability.

Applications

- Electrical Installations
- Plumbing and Pipe Fitting
- Construction and Building Projects
- HVAC Systems
- Welding Projects
- Automotive Fabrication
- Furniture Manufacturing
- Sheet Metal Work

- Bending Level
- Handle Extension Tube
- Bending Former 20mm
- Bending Former 25mm
- Complete Pipe Vice
- Lower Vice Jaw
- Stop Block
- Stop Block Bar
- Cotter Pin
- Pivot Pin
- Center Pin
- Grooved Roller
- Flat Washer 12mm
- Support
- Main Body
- Special Bolt
- Inside Spacer Sleeve
- Outside Spacer Sleeve
- Lock Nut M12-1.75
- Chain with Ring
- Grooved Roller Pin
- Hex Bot M8-1.25x25
- Flat Washer 8mm
- Hex Nut M8-1.25

Conduit Die Set

Description

The **Conduit Die Set** is a versatile and durable toolset designed to shape and thread electrical conduits and metal pipes with precision. This set ensures seamless fitting and professional-quality results, making it ideal for electricians, plumbers, and construction professionals. Featuring a range of die sizes, it accommodates various pipe dimensions and materials, offering flexibility for diverse applications. Its hardened steel construction ensures longevity and resistance to wear, while the ergonomic design facilitates efficient and accurate operation. Perfect for creating reliable joints and bends, the Conduit Die Set is a must-have for any piping project.

Applications

- Electrical Conduit Shaping
- Plumbing and Pipe Threading
- Industrial Pipe Fitting Projects
- Construction and Building Utilities
- HVAC Conduit and Pipe Work
- Custom Metal Fabrication
- Maintenance and Repair Operations
- Mechanical Workshop Applications

One complete 20mm & 25mm Die Set contains:

- 1 x Die for 20mm
- 1 x Die for 25mm
- 1 x Die Guide for 20mm
- 1 x Die Guide for 25mm
- 1 x Die Stock per set with detachable handle

One complete 32mm Die Set contains:

- 1 x Die for 32mm
- 1 x Die Guide for 32mm
- 1 x Die Stock per set with detachable handle
