WATER PROOF PAPER

Description

Waterproof paper abrasive is a versatile sandpaper with a water-resistant backing, ideal for wet and dry sanding. It offers superior durability, consistent cutting action, and a smooth finish on various surfaces, making it perfect for automotive, woodworking, and metalworking applications.

Features

- Water-resistant backing for wet sanding
- Consistent cutting action and fine finish
- High durability and long-lasting performance
- Suitable for multiple surfaces and materials
- Flexible and easy to handle
- Clog-resistant for smoother sanding
- Uniform grit distribution for precise results
- Versatility in wet and dry applications
- Enhanced bonding for extended life
- Ideal for automotive, woodworking, and metalworking

SANDING DISC

Description

A sanding disc is a circular abrasive tool used for smoothing, finishing, and polishing surfaces. It attaches to power sanders and provides efficient material removal, delivering a consistent finish on wood, metal, and plastic. Ideal for automotive, woodworking, and industrial applications, sanding discs are available in various grits to suit different tasks.

Features

- High material removal rate for quick results
- Uniform grit distribution for consistent finish
- Durable construction for extended use
- Available in various grits for different tasks
- Easy attachment to power sanders
- Suitable for wood, metal, and plastic surfaces
- Heat-resistant for prolonged sanding
- Reduced clogging for smoother operation
- Versatility in sanding, finishing, and polishing
- Ideal for automotive, woodworking, and industrial use

Technical Data

Size	Grit
4”	Grit 16, 24, 36, 40, 60, 80, 100, 120, 150
4 1/2”	Grit 16, 24, 36, 60, 80, 100, 120, 150
5”	Grit 16, 24, 36, 60, 80, 100, 120, 150
7”	Grit 16, 24, 36, 60, 80, 100, 120, 150

EMERY CLOTH ROLL

Description

Emery roll cloth is a flexible abrasive material used for hand sanding and polishing. Made from durable cloth backing coated with emery grains, it is ideal for smoothing and deburring metal surfaces, sharpening tools, and refining edges. Perfect for both industrial and DIY applications, emery roll cloth offers excellent flexibility and can be easily cut to size for various tasks.

Features

- Flexible cloth backing for easy handling
- Coated with durable emery grains for effective abrasion
- Ideal for hand sanding and polishing
- Excellent for metal deburring and edge refinement
- Available in various grits for precise control
- Easily cut to desired length for different tasks
- Suitable for sharpening tools and smoothing surfaces
- Versatile for industrial and DIY applications
- Consistent performance across various materials
- Long-lasting durability for repeated use

Technical Data

Size	Grit
25mm / 1”	Grit 36, 40, 50, 60, 80, 100, 120, 150, 180, 240, 280, 320, 400, 600
50mm / 2”	Grit 36, 40, 50, 60, 80, 100, 120, 150, 180, 240, 280, 320, 400, 600
100mm / 4”	Grit 36, 40, 50, 60, 80, 100, 120, 150, 180, 240, 280, 320, 400, 600

FLAP WHEEL

Description

Flap wheels are versatile abrasive tools designed for grinding, blending, and finishing both flat and contoured surfaces. Constructed from multiple abrasive flaps bonded to a central hub, they provide a consistent cut and a smooth finish. Ideal for deburring, edge-breaking, and surface preparation, flap wheels adapt easily to irregular shapes.

Features

- Abrasive flaps mounted on a flexible hub for adaptability
- Provides smooth, consistent cutting action
- Ideal for grinding, blending, and finishing
- Effective on both flat and contoured surfaces
- Available in various grits for specific needs
- Conforms to irregular shapes with ease
- Perfect for deburring and edge-breaking tasks
- Suitable for metal, wood, and automotive work
- Delivers uniform results across multiple materials
- Durable construction ensures extended use
