Number-Letter Punch, & Hole Punch

Number & Letter Punch

The Scarb® Number & Letter Punch set offers a comprehensive solution for precision marking and identification tasks across various industries and crafting endeavors. Engineered with meticulous precision and durability in mind, this set comprises high-quality punches crafted from hardened steel or alloy steel, ensuring long-lasting performance and reliability.

With the Scarb® Number & Letter Punch set, users can effortlessly imprint numbers (0-9) and letters (A-Z) onto a wide range of materials, including metal, plastic, leather, and wood. Whether for industrial applications like part numbering and serial marking or for personal projects such as jewelry making and customizing tools, these punches deliver clear, legible characters with every strike.

Hole Punch

The Scarb® Hole Punch is a stalwart tool that meets a diverse array of hole-punching needs across various materials. Engineered with a keen focus on precision and durability, it provides a dependable solution for both professionals and hobbyists alike. Whether you're working with paper, cardboard, leather, or other materials, the Scarb® Hole Punch delivers consistent and accurate results with ease.
